## Education

---

### **Fast NUCES**

Bachelor of Science in Computer Science, 7th Semester

Islamabad

Sep. 2021 – Present

### **Askaria College For Boys**

Intermediate

Rawalpindi

Aug. 2019 – May 2021

## Experience

---

### **Software Development and Network Engineering Intern** **Haidri Beverages Pvt. Ltd. - PepsiCola International Franchise** **Islamabad, Islāmābād, Pakistan | On-site**

July 2024 – August 2024

Worked as a full-time intern focusing on software development and IT infrastructure. Key contributions include:

- Designed and developed the nextGEN website for Pepsi using Next.js, leveraging its features for server-side rendering, dynamic routing, and optimized performance.
- Created a data scraping software to migrate data from a legacy website into a modern platform.
- Gained hands-on experience in IT infrastructure, including data center operations and Cisco device functionality.

### **Machine Learning Intern** **RapiDEV**

Jan 2023 – March 2023

NSTP NUST, Isb

- Worked as a full-time ML Intern under the software department Owlsense at RapiDEV.
- Developed an Object Detection model based on Artificial Intelligence.
- Developed a software which helped in data collection for the training of the model.

## Projects

---

### **HealthBridge | MERN Stack, AI Diagnostics**

- Developed a comprehensive healthcare application aimed at improving accessibility and diagnostics for liver-related conditions.
- Integrated AI-powered real-time liver diagnostics.
- Designed for patients, doctors, and research institutes, ensuring secure data handling and modular scalability.
- Currently under development with planned deployment on a cloud-based platform.

### **Portfolio Website | React VITE, Three JS.**

- Developed a Portfolio website which includes my portfolio and experience.
- <https://abdullah-zahoor-portfolio.netlify.app/>
- Deployed on netlify.

### **Fast Society Management System | Dot NET, Razor Page, Sql**

- Developed a full-stack web application using Dot NET Razor Pages.
- User friendly interface and easy to interact frontend.
- Properly implemented backend.
